Blueprint Truffle Box¶

This box comes with everything you need to create your own Truffle Box.

Getting Started¶

After adding your libraries and code:

1. Deletebox-img-sm.png
2. andbox-img-lg.png
3. .
4. Usebox-img-sm-template.png
5. andbox-img-lg-template.png
6. to create your own art.
7. Delete the template images and replace them with your art. Be sure your art's filenames don't have -template in them.
8. Customize the box configuration file (truffle-box.json
9.) if necessary.

Seethe Truffle Box section of our documentation for more info.
