June 19 - July 10

Hi everyone! This forum post is an update from Enigma to the Secret Network community. Below is a summary of what we have been doing since Friday, June 19. You can follow our progress by reviewing these GitHub project boards. Our most recent two-week sprint is ending Sunday, July 19, before we kick off the Secret Games!

Highlight: Enigma Development Update - June 2020

Secret Hackathon

Following the achievement of milestone 3 of 3 (running CosmWasm in secure enclaves with encryption), Enigma's dev team has been focused on testing secret contract functionality and getting ready for the Secret Games. Our team did a hackathon this week, and we learned a lot in the process. Check out this poker game created by @assafmo:

Building Secret Foundation

Led by Executive Director Tor Bair, Enigma CEO Guy Zyskind, and Iqlusion Cofounder Zaki Manian, Secret Foundation is a non-profit dedicated to advancing privacy as a human right and a public good. Essentially, the goal is to empower humanity by providing necessary tools, education, and support in order to promote data dignity through civic engagement. As an organization, Secret Foundation is intended to provide a neutral ground to facilitate coordination of Secret Network participants, and in order to be sustainable, the Foundation may receive a percentage of inflation as funding.

Let the Secret Games Begin!

During the upcoming incentivized testnet, node operators, developers, and other community members will earn rewards (up to 1% of total supply) for successfully completing secret missions

. The Secret Games are intended to help with testing encrypted computations running on Secret Network. Read the article below for details about the proposed structure, rewards, and timelines.

Phase 1 (beginning July 20) is invite-only. However, Phase 2 will be more open.

Community Participation

Secret Network Governance: Best Practices [Secret Governance

](/c/governance/47)

Hi everyone! I've been collaborating with members of the community to figure out best practices for governance of the

[Secret Network](#). It's definitely a complex system! There are many interwoven processes of governance. Ultimately, our common goal is to build, research, and scale the adoption of privacy-first technologies for the public good. The main goal for this post is to clarify expectations regarding off-chain participation that should happen before proposals are submitted on-chain. Norms …

Governance Committee

Next meeting: 2020-07-15T15:00:00Z

During the governance discussion earlier this week, our main agenda item was [Proposal 16: Changes to Inflation Rate and Community Fee](#), but nobody on the call had any comments or questions. We also talked about improving our documentation, getting more involved in the Cosmos ecosystem, and collectively defining Secret Foundation committees. All future meeting notes will be available in the [Secret Foundation Wiki](#). Your contributions are much appreciated!
