Quick Start

Resources to quickly get you up and running using the Brink protocol.[Suggest Edits](#)

Disclaimer

The Brink engineering team is still working hard on the products explained in these docs. Therefore, you may come across some inconsistencies or stale/missing information. We are working hard to make the Brink Intents Protocol fully feature-complete, and refining the documentation is part of that process. If you have any questions, please reach out to us on[Discord](#) .

Get an API Key

The Brink API is the primary interface point for developers building with Brink Intents. All requests require an API key.

[Request your API Key](#)

Build your first intent

Building intents into your app is easy. We recommend starting with[Creating your first intent](#)

Get familiar with the Brink DSL

The Brink DSL helps you design powerful intent-based workflows. Use the[DSL Reference](#) to learn about what it can be used for.

Understand the Brink Intents Protocol

Read the[Protocol Overview](#) . Updated5 months ago
