Abstract Summary:

This proposal suggests the creation of an ApeCoin DAO Discourse Facilitation team to facilitate the DAO-approved governance process, in addition to maintaining a productive environment within the DAO's governance platform. The team will be responsible for overseeing the proposal process, moderating discussions, enforcing rules, and promoting positive community engagement based on DAO-approved guidelines. Under this proposal, the DAO will select two Discourse Facilitators via DAO-wide vote, while [@Lost.Admin](#) will be seeded as the third Discourse Facilitators, to ensure continuity from the current Discourse Facilitator team. Come August 2023, the responsibility to choose the Discourse Facilitation team will be assigned to the Governance Working group, provided that the DAO votes to approve the Working Groups structure.
