March 2024 Aligned Delegate Compensation

This forum post is the official record of Aligned Delegate compensation for March 2024.

March Compensation

The total payment amount is defined in the Atlas and Governance Scope as follows:

- NewGovToken amount being distributed to PDs and RDs are 60 million and 20 million respectively.

- Ratio of MKR:NewGovToken is 1:24,000.

- The number of slots for each type of delegate is 4.

- A temporary reduction in payment amounts to Prime and Reserve Delegates of 20%.

Based on this, Prime Delegates may earn up to 41.67 (60,000,000 * 1/12 * 1/4 * 1/24000 * 4/5

) MKR per month, and Reserve Delegates up to 13.89 (20,000,000 * 1/12 * 1/4 * 1/24000 * 4/5

) MKR per month.

Prime Delegates Throughout the Month

The following ADs served as Prime Delegates for the duration of March, and the top 4 PDs by MKR will continue as PDs at the beginning of April:

- BLUE

- Cloaky

- TRUE NAME

BONAPUBLICA held the position of Prime Delegate for 16 days before being replaced by JuliaChang, who surpassed their MKR delegation by more than double. Following this change, JuliaChang remained a Prime Delegate for the rest of the month.

March Delegate Payment Amounts

The following table shows the AD payment amounts and destination addresses for this month. Remember that if an ADs Buffer is not full, any compensation goes to filling this before payments are made, further updates on the Buffers may be found below.

This is a total of: 214.55 MKR

.

AD Buffer Updates

The following table displays the payment amounts to each delegate for this month and their AD Buffer status at the end of the month. Note that while the implementation is manual, the Max AD Buffer size will be scaled based on the amount of time they have spent as PD/RD for the month, e.g. if someone has spent the entire month as a PD, their max buffer size will be equal to the max PD payout, if they've spent 10 days as a PD, their max buffer size will be pro-rated to (10 / n) * buffer size

, where n = number of days in the month. There are potential griefing attacks if this method is not used.
