OP Stack networks and public RPC endpoints

This reference guide provides a listing of the different OP Stack networks and public RPC endpoints.

The public RPC URLs provided below are rate limited and do not support websocket connections. If you are experiencing rate limiting issues or need websocket functionality, consider[running your own node](#) or signing up for a[third-party RPC provider](#) .

OP Mainnet

Parameter Value Network Name OP Mainnet Chain ID 10 Currency Symbol1 ETH Explorer [https://optimistic.etherscan.io(opens in a new tab)](#) Public RPC URL [https://mainnet.optimism.io(opens in a new tab)](#) Sequencer URL2 [https://mainnet-sequencer.optimism.io(opens in a new tab)](#) Contract Addresses Refer to the[Contract Addresses page](#) Connect Wallet [Click here to connect your wallet to OP Mainnet(opens in a new tab)](#)1. The "currency symbol" is required by some wallets like MetaMask. 2. The sequencer URL is write only.

OP Sepolia

Parameter Value Network Name OP Sepolia Chain ID 11155420 Currency Symbol1 ETH Explorer[https://sepolia-optimistic.etherscan.io(opens in a new tab)](#) Public RPC URL [https://sepolia.optimism.io(opens in a new tab)](#) Sequencer URL2 [https://sepolia-sequencer.optimism.io(opens in a new tab)](#) Contract Addresses Refer to the[Contract Addresses page](#) Connect Wallet [Click here to connect your wallet to OP Sepolia(opens in a new tab)](#)1. The "currency symbol" is required by some wallets like MetaMask. 2. The sequencer URL is write only.
