With the DAO celebrating its 2nd Birthday, I pose this new Temp Check Poll to the community:

What aspect of ApeCoin DAO are we doing RIGHT that other DAOs are doing WRONG? On the flip side, what aspect of ApeCoin DAO are we doing WRONG that other DAOs are doing RIGHT?

I have a list of possible options for you:

Voting

- This covers all aspects related to how we handle, conduct, implement, and perform voting, and includes how 1 Ape = 1 Vote.

Proposals

- This covers the process and procedure for how writing, submitting, and give community members the ability to submit proposals, so long as they hold 1 APE.

Community

- This covers aspects related to the number, quality, and distribution of our community members

Administration

- This covers aspects related to how we have the APE Foundation and Stewards that facilitations the decentralized and community-led governance of ApeCoin DAO. This also covers how we handle elections.

Token

- This covers aspects related to how we have, utilize, and/or are work with the ApeCoin ERC-20 token.

Branding

- This covers aspects related to how we shape who we are as a DAO.

Marketing

- This covers aspects related to how we promote our DAO

Products

- This covers any product that is a result or was funded by ApeCoin DAO.

Other (Leave a comment)

- This covers everything else that would otherwise not be covered by one of the above topics.

What do you think?
