bor_getSignersAtHash

Returns all the signers of the block matching the specified block hash.

For Growth and Custom service plans This JSON-RPC method allows a request to be forwarded to a partner service provider if Infura should experience a service issue or outage. SeeFailover protection andEnable API request forwarding for complete details.

If you would like failover protection but don't qualify under your current plan, then either self-upgrade to the Growth plan or contact a sales representative to upgrade to a Custom plan.

Parameters

Hash - hash of a block

Returns

Array of signers for the specified block hash

Example

Request
