ERC1155Proxy

Derives

- ImmutableOwner

Functions

constructor

function

constructor (address _immutableOwner)

public

Parameters:

Name Type Description _immutableOwner address

func_301JL5R

function

func_301JL5R (address

from , address to , uint256 amount , contract

IERC1155 token , uint256 tokenId , bytes data)

external Proxy transfer method forIERC1155.safeTransferFrom . Selector must matchIERC20.transferFrom

Parameters:

Name Type Description from address to address amount uint256 token contract IERC1155 tokenId uint256 data bytes
