Over the last year, the dev team has been funding the[Depositor bot](). The bot secures and optimizes gas spending for ETH deposits to the beacon chain.

We propose to refund the dev team for gas spent on deposits so far: 254.684812629886507249

ETH.

Calculations:

- Deposits spent so far: 237.81278370000229

ETH. ([calculations])

- Currently on bot's wallet: 6.872028929884217249

ETH (Wallet address: [0xF82aC5937A20dC862F9bc0668779031E06000f17

](https://etherscan.io/address/0xF82aC5937A20dC862F9bc0668779031E06000f17))

- Buffer in the amount of 10

ETH, that will be used to refund all recent transfers to the depositor bot's wallet from the dev team until it's funded by DAO. Unspent ETH will be transferred to the bot's wallet.

Wallet to refund: [0x48F300bD3C52c7dA6aAbDE4B683dEB27d38B9ABb

](https://etherscan.io/address/0x48F300bD3C52c7dA6aAbDE4B683dEB27d38B9ABb) (finance ops multisig wallet, [mentions on research forum])
