Connecting to Fhenix Frontier

Fhenix Frontier, the first publicly available FHE-based blockchain, is now live! You can connect to it using the following methods:

Configuring MetaMask

1. Open MetaMask in your browser and click on the Ethereum network.
2. ClickAdd Network.
3. ClickAdd a network manually
4. .
5. Fill out the network details form. To add a custom network you need the following details:
6.
    1. Network Name: Fhenix Frontier
7.
    1. New RPC URL:https://api.testnet.fhenix.zone:7747
8.
    1. Chain ID:
9.
    1. 42069
10.
    1. Currency Symbol: tFHE
11.
    1. Block Explorer URL:https://explorer.testnet.fhenix.zone
12. Once you fill out all the details, clickSave
13. .
14. Now you can switch to Fhenix Frontier. Get some tokens using the testnet faucet and start building!

API endpoints

Type API JSON-RPC https://api.testnet.fhenix.zone:7747 Chain ID 42069

Explorer

- https://explorer.testnet.fhenix.zone

Faucet

To get some test tokens, use the faucet athttps://faucet.fhenix.zone/ . You can get 0.5 tFHE once per 5 minutes.Edit this page
