This will be the main communication thread for LobbyFi's Arbitrum DAO governance votes both off-chain (on Snapshot) and on-chain.

For the most part, we would simply post the option our voting power was used to vote for, and add a link to the proposal on our frontend + the transaction where the voting power was acquired.

The details how LobbyFi functions can be found on lobbyfi.xyz.

In case of any questions, feel free to reach out to us at @lobbyfichat

in Telegram.
