Connect Wallet

In our official block explorer, we support third-party wallets like Keplr and Leap Wallet.

Before connect wallet

1. Navigate to Cosmoscan

To begin, assume that you have BAND on the BandChain, then navigate to the website cosmoscan.io . This website is our official block explorer and is a crucial tool for interacting with the BandChain.

2. Make sure you are on the right site

Once you're on the CosmoScan site, make sure the url is https://www.cosmoscan.io and ensure that you're operating on the mainnet. You can verify this by locating the network information on the top-left corner of the website interface. The mainnet is the primary network for transacting tokens.

3. Click to connect wallet

Next, you will need to connect your wallet to the website. click the button Connect Wallet on the right of navigation bar to initiate this process.

How to connect Leap Wallet
