Setting up a Wallet

Installing a Wallet

Sei supports multiple native wallets.

- [Compass(opens in a new tab)](#)
- [Leap(opens in a new tab)](#)
- [Fin(opens in a new tab)](#)

For more wallet options, please visit our [registry(opens in a new tab)](#) .

Import Manually

On the wallets listed above, they should be automatically be configured to support Sei. However, other unsupported wallets may require chain information to support Sei. Some of the following sample config might be helpful here:

pacific-1 (mainnet) atlantic-2 (testnet) * Chain Name * : Sei * RPC URL * [https://rpc.wallet.pacific-1.sei.io(opens in a new tab)](#) * REST URL * [https://rest.wallet.pacific-1.sei.io(opens in a new tab)](#) * Chain ID * : pacific-1 * Block Explorer URL * : [https://www.seiscan.app/pacific-1(opens in a new tab)](#) * Currency Symbol * : SEI * Coin Type * : 118 * Minimum Denom * : usei * Decimals * : 6 Last updated onMarch 18, 2024 [Overview](#) [Getting Sei](#)
