They are not multipliers at all. Medals have no purpose other than as bragging rights. The numbers are simply counts, i.e. this model has gotten 22 gold medals (all-time, historically) for 1% TC, 1 gold for CORR, and 5 golds for MMC. That's it. (Corr & MMC medals are no longer given, but the ones you had before aren't taken away – only TC medals are given now.)
