Hey Everyone,

We want to inform you that, after careful consideration, the GMX Grants Committee has decided to close down the GMX Grant Program for now.

Considering the numerous proposals already received, the STIP timeline, and the limited grants budget, we have concluded that this is the most sensible course of action.

We appreciate the incredible support received so far, and the many innovative projects that have been part of this initiative. We can't wait to see all the results.

Effective Wednesday, December 13th, at 4 PM UTC, GMX will no longer accept new grant applications, and the program will be officially closed. We want to express our gratitude to all the individual builders and teams who have contributed to the growth and development of the GMX ecosystem through the grants program.

While the Grants Program is coming to an end, we remain committed to fostering a vibrant and collaborative ecosystem. Please stay connected with us through our various communication channels, as we have exciting plans for the future.

If you have any questions or concerns related to the closure of the Grants Program, please feel free to reach out to @Saurabh. We appreciate your understanding and continued support.

Thank you for being a valuable part of the GMX community.
