Abstract

ApeX (pronounced "Apex") Showcase is a quarterly web3 showcase and competition that aims to highlight the skills of the creatives affiliated with Apecoin, including but not limited, to music production, visual art, and media. Everyone has a hobby or skill outside of their main line of work. This will be a good way to get the community together to do a "show & tell" and to showcase useful skills to others in the community. Beyond the community, it will be a great way of exposing Apecoin and associated projects to new crowds. This will provide Apecoin with the chance to gain more momentum in the cryptocurrency space and serve as an entry point for individuals who are not yet involved in the crypto and web3 world.
