AIP Name:

[AIP-41: Keep ApeCoin within the Ethereum ecosystem - Process](#)

Implementation Status:

Complete

Author:

[@ASEC](#)

Abstract Summary:

Yuga Labs [stated in a tweet](#) that they believed ApeCoin needed to move to its own chain in order to scale. We the ApeCoin DAO believe that, at least for the time being, ApeCoin should remain within the Ethereum ecosystem, and not migrate elsewhere to an L1 chain or sidechain not secured by Ethereum.

Overall Cost:

There is no cost associated with this AIP.
