- Organization name: blockscape

- Organization website: https://blockscape.network/

- Organization Github: BlockscapeLab

- Organization social channels: twitter: @BlockscapeLab

- Organization location: Germany - Stuttgart

- Organization size: 5

- Brief description of organization: Throughout our journey in the world of blockchains, a variety of ideas and products have emerged. In our quest for perfection, we see it as our mission to make sure not to let great ideas fall through the cracks. As advocates for a decentralized future, we make sure to make the most out of our ideas and strive to contribute in any meaningful way possible.

- Brief description of performance track record: Starting with Cosmos in early 2018 we have helped launch and maintain several blockchain projects

- Overview of supported networks: Cosmos Mainnet Validator "blockscape", Cosmwasm, E-Money, Bandprotocol, Kusama, Polkadot, Althea Peggy, Ethereum 2 Validator, Oasis, Desmos, Regen-network, Smartlands, Chainlink and a lot of testnets

- Motivation for application: Lido enables the expansion of the target group and participants, bringing more liquidity to the market. This drives the technology forward and our mission is to enable better access and advancement of these technologies

- Security set up for ETH staking:

- 24/7 support and monitoring

- High-speed business internet access

- Multi-region and multi-client infrastructure

- History of participating in ETH testnet: blockscape participated in the Lido Goerli testnet and have been building infrastructure for Ethereum 2 validation.
