How to stake and claim rewards

You can learn how to stake your tokens by following the [How to stake FET ↗](#) and [Different ways of staking FET tokens ↗](#) guides available within our documentation.

Claiming rewards

If your account has tokens staked, you can withdraw your rewards directly from the wallet:

1. Ensure you are logged into the wallet.
2. From the wallet dashboard, select Claim
3. .
4. ⓘ
5. This will claim the total rewards accrued for your stakes across every validator.
6. The wallet shows you a summary of the transaction. Review it, select a transaction fee, and if you are happy, hit Approve
7. to complete the operation.

You should now see the rewards added to your Total Balance .

ⓘ If you want to claim rewards from each validator individually, see the [Claim rewards using the staking dashboard ↗](#) .
