Hi OP Collective,

We're excited to announce the launch of the[Citizens Database](Citizens Database) on the Superchain Eco platform.

This new platform maps all current OP Citizens, detailing their roles in projects and their retrospective rewards for reviewing RetroPGF3.

Our analysts will use the created Citizen database to gain relevant insights for improving RPGF and Collective Governance.

We would love to hear your feedback and appreciate any help spreading the word about this[launch.](launch.)

Next Steps

We're working on applications for the Foundation Mission Requests, focusing on measuring concentration in the collective and voting design tradeoffs for Retro funding. We plan to complete these to further enhance Governance Analytics in the Collective.
