Hi all! Welcome to the Enigma Developers Forum

This thread is for introductions, whether you're just joining the community or have been active for a while. Feel free to be personal or extremely vague - either way, we're glad you're here and participating!

My name is Tor - I'm the Head of Growth and Marketing for Enigma, primarily based in Chicago, USA. I'm a musician and writer, I like solving problems with data and design, and I still play Ultimate Frisbee whenever the weather allows. I host Enigma's podcast, Decentralize This! I also have two majestic cats.

I'm always thinking about the best ways to expand our project and community, so don't hesitate to reach out to me with any suggestions or thoughts
