Hello builders!

Our contributor working on an analysis article that will examine ApeCoin DAO, and provide some suggestions and recommendations for improving its governance process or addressing its issues. He wants to write an objective and balanced article that reflects the views and experiences of the ApeCoin community.

We are seeking help from the ApeCoin community to provide us with some insights and feedback on the following questions. No need to answer al the question, or to answer them publically, its fine if you want to be anonymous.

- What are the main goals and vision of ApeCoin DAO?

- How decentralized the DAO

- What are the main benefits and challenges of being a member of ApeCoin DAO?

- How do you participate in the governance process of ApeCoin DAO?

- How do you evaluate the performance and quality of the proposals and the fund distribution of ApeCoin DAO?

- How do you communicate and collaborate with other members of ApeCoin DAO?

- How do you deal with conflicts or disagreements within ApeCoin DAO?

- How do you feel about the role and influence of the APE Foundation in ApeCoin DAO?

We appreciate any input or feedback that you can provide us. You can reply to this post or contact us via PM or email contact@daotimes.com. We will also share our draft article with you before we publish it, so that you can review it and give us your comments or suggestions.

Thank you for your help and cooperation.
