Tree Ensemble Regressor

TreeEnsembleRegressorTrait provides a trait definition for tree ensemble regressor problem.

```

Copy useorion::operators::ml::TreeEnsembleRegressorTrait;

```

Data types

Orion supports currently only fixed point data types forTreeEnsembleRegressorTrait .

Data type dtype Fixed point (signed) TreeRegressorTrait

How to constructTreeEnsembleRegressor

You can utilizethis notebook to translate parameters from your ONNX TreeEnsembleRegressor model into Cairo code. Efforts are underway to integrate this functionality into Giza-CLI, aiming to enhance the user experience.

function description tree_ensemble_regressor.predict Returns the regressed values for each input in N.
